1 Preface

These instructions are for final assembly after container shipping, since trouble-free shipping can be ensured by removing or rotating certain components.

Figure 1: The Rotary Hoe on the transport pallet.

2 Installation of the arm carrier pair

To install the arm carrier pair, proceed as follows:

- ⇒ First place the arm carrier pair in the middle between the two marks on the frame.
- ⇒ Then tighten the bolts with a size 24 spanner or similar.
- ⇒ Tighten the bolt with a torque of 140Nm.

Figure 2: Placement of the arm carrier pair.

Figure 4: Tightening with torque.

Figure 3: Bolting on the arm carrier pair.

3 Rotating the feeler wheels

To reposition the feeler wheels, proceed as follows:

- ⇒ First remove the linch pin and the pin.
- ⇒ Then pull out the feeler wheel upwards and rotate it so that the tyre is on the ground.
- ⇒ Then insert the feeler wheel from below into the bracket and fasten with the pin and linch pin.

Figure 5: Removing the linch pin & pin.

Figure 7: Inserting the feeler wheel and securing with the pin and linch pin.

Figure 6: Pulling out the feeler wheel and rotating it.
